Sew Much Comfort

Week of April 23, 2007

Sew Much Comfort is a nonprofit organization whose members have sewn more than 20,000 items of customized clothing for wounded servicemembers since it began in December 2004. The official mission of Sew Much Comfort is to design, create and deliver customized clothing to accommodate a patient's medical devices and situations - braces, fixators, casts, prosthetics and burns. It is the only organization that provides specially designed adaptive clothing to military hospitals, both in the United States and in LRMC and combat surgical hospitals in-theater. For more information, visit the [Sew Much Comfort website](#).
